Education

2015-	**MSc Economics**, *Rheinische Friedrich-Wilhelms-Universität*, Bonn, Grade: 1,3, 90/120 Credits. Likely, I will look at voting systems with a limited message space for voters.
2015-2017	**MSc Mathematics**, *Rheinische Friedrich-Wilhelms-Universität*, Bonn, Grade: 1,2. My thesis studied classification of graphs theoretically using the theory of graphons and applied it to neuroscience data. [1] contains results from the thesis.
2012-2014	**BSc Mathematik**, *Rheinische Friedrich-Wilhelms-Universität*, Bonn, Grade: 1,7. My thesis studied the integrality gap of the Subtour Elimination Polytope for the special case of the Euclidean Travelling Salesperson Problem.

Work

2017-2019	**Fellow**, *Teach First Deutschland Berlin gGmbH*, Groß-Gerau, at BeruflicheSchulen Groß-Gerau. I teach apprentices and junior high students and establish new working groups at the school (Debating, Model United Nations). Among others, I installed a *Github Classroom* for apprentices. I wrote a (German) introduction to Git for my students here. I teach programming in C#.
2-3/2017	**Internship Scientific Assistance**, *Delegate in German Bundestag Marian Wendt*, Berlin, Inner, Digital, NSA. I conducted research on subjects of politics of the inner and prepared meetings.

Stipends and certificates

4/2013- 9/2017	**Scholarship**, *Evangelisches Studienwerk*, Villigst. Evangelisches Studienwerk is one of the 13 institutions that grants federal scholarships to students.
10/2017	"Neural Networks and Deep Learning", "Improving Neural Networks: Hyperparameter tuning, Regularisation and Optimization", "Structuring Machine Learning Projects" (Coursera, deeplearning.ai).
3/2016- 3/2017	**Mathematisch-Naturwissenschaftliches Kolleg**, *Studienstiftung des Deutschen Volkes*, Bad Honnef, Wittenberg, Nürnberg. In three seminar weeks we tackled problems from theoretical computer science, logics and mathematical puzzles.

Languages

English (C2), French (B2)

Digital

LaTeX (expert), `python`, `pandas`, `tensorflow` (advanced), Version Control (Git, Mercurial), C# (good), Photoshop, InDesign (good), Matlab (good)

Extracurricular

7/2017- 6/2018	**Event Logistics**, *Bildungsfestival*, Essen. I coordinate material logistics for the event an organise meals for the preparatory meetings/weekends.

| 3/2015- | **Editor**, *Bonn Journal of Economics*, Bonn. |
| 3/2016 | I helped authors in creating an extended abstract of their thesis for the journal. Furthermore, I created a new LaTeX template for it. Here you find an issue I typeset. |

Invited talks

| 9/2017 | **Speaker**, *Workshop* Intelligent Machines, Schwerte. |
| | I lead a workshop on recommender systems. |

Frankfurt, January 31, 2018
